## *Pet pleasures*

For dog lovers everywhere, it's always wonderful to bring this much-loved member of the family along on vacation with you. Luckily, there are many hotels that welcome four-legged guests with open arms, ensuring a comfortable stay for both pet and owner.

Boston is a great city option with all its parks, and **XV Beacon** offers homemade dog biscuits, a plush dog bed, and a helpful list of local pet-friendly establishments. At **Ojai Valley Inn & Spa** in California, facilities include a gourmet pet menu and walking services, while at **Willows Lodge** near Seattle, the Willows Very Important Pet Program offers a doggie room-service menu, and maps and directions for walks for pets and owners.

Finally, if you're staying in San Francisco, the Eco Luxe Pups program at **Cavallo Point – the Lodge at the Golden Gate** includes customized food and water bowls, plus organic cookies and treats. Meanwhile, at **Hotel Nikko San Francisco**, you will probably get to meet the hotel's very own furry COO (Canine Operating Officer) – the adorable Buster!
